The Portland Metro public transportation system, Tri-Met, is one of the most successful and respected transit providers in the nation. The MAX (light rail) and bus system make getting anywhere between the west and east sides quite easy. The newest light rail WES provides north-south transportation between Wilsonville and Beaverton (www.TRIMET.org).

Modern transportation in Hillsboro doesn't end with the light rail system. Bicycle transportation is a thing of the past - and future. The WashCo Bicycle Transportation Coalition can provide more information on cycling in Hillsboro (www.washcobtc.org).

Hillsboro has the busiest general aviation airport in Oregon! It is located

at the center of town just off Northeast Cornell Road. While airport tenants of the Portland-Hillsboro Airport don't serve the public directly, the airport is a base of operations for many major companies such as Intel and Nike that fly their own corporate jets. Several of the airport's businesses provide charter flights for business executives and celebrities, performance groups and athletic teams (www.portofportland.com).

For commuting options, contact Westside Transportation Alliance (www.wta-tma.org).
